Lámparas LED

Mayor rendimiento

Bosch tiene soluciones para los conductores que desean mejorar las luces de su vehículo y sustituir las lámparas halógenas por luces LED. Este tipo de lámparas transmite una luz más blanca, moderna e intensa y con una duración superior.

Si bien es cierto que la tecnología de lámparas LED retrofit aún no está homologada según ECE en los países de la EU para aplicaciones exteriores en las vías públicas, pero para aplicaciones "off-road", señalización e iluminación interior puede ser una opción muy interesante.

Encuentre la información de la gama de lámparas LED Bosch en nuestra página web o solicite información a su contacto Bosch.
